

Graduation Trip [Scenario]

Graduation Trip [Scenario]

Your group is planning to go on a graduation trip to one of the three destinations listed below. You have been good friends for more than five years, and this will be the last chance to spend two weeks together as students. Therefore, this trip will be very special for all of you.

The three alternative destinations are: a, b, and c, which stand for USA (or North America), Britain (or Europe), and China (or East Asia), respectively.

Preference order and permissible range for these destinations vary among the group members. You are willing to go to a more preferred destination within your permissible range, but you do NOT want to go to a destination which is outside your permissible range.

Please discuss among your group the “pros and cons” of the three destinations. Based on the discussion, choose one destination or decide not to go at all.
